

	Company name	The Boyce Consultancy Group, LLC
	Brief company overview	<p>The Boyce Consultancy Group, LLC is an alliance of independent individuals and corporations with a wide spectrum of knowledge and experience in the Energy field. The Boyce Consultancy partners with their clients to ensure that their Power Plants, Refineries and Chemical Plants are operating at their maximum efficiency and power rating. The Boyce Consultancy is also involved in design of new types of prime-movers, such as a wood fired gas turbine. In areas of forensic engineering The Boyce Consultancy works closely with both the manufacturer and user of equipment, first, to determine the cause(s) of the failure and, secondly, to redesign and solve the problem. In cases where these problems lead to legal confrontation The Boyce Consultancy engineers have appeared as Expert Witnesses to ensure that their clients' interests are properly represented. The Boyce Consultancy engineers have experience in presenting reports and testimony for legal and insurance claims.</p>
